

Latvian Fund for Nature and the project team of EU LIFE+ project LIFE13 NAT/LV/001078
“Conservation arrangements for Lesser Spotted Eagle in Latvia” (LIFE AQPOM)
have the pleasure to invite you to the

International Conference on the Lesser Spotted Eagle,

aiming to gather species experts from all European range countries to share their experience.

The overall objective of the project is to improve the conservation status of Lesser Spotted Eagle (LSE) in Latvia. The event will conclude the project activities and showcase the results, presented by all four project partners.

The conference will focus on dissemination of gained experience and discussion of future perspectives of conservation of LSE across the breeding range.

Conference will take place online via the meeting platform ZOOM
from 9th to 10th of September 2021

We aspire to cover topics such as

- species population size,
- status and local trends,
- breeding ecology,
- conservation,
- habitat management,
- migration and other.

Application is open until July 1st of 2021. To register for the conference, please complete the Registration form below

<http://bit.ly/LSELVconference>

We kindly ask you to share the invitation among people who might be willing to attend. The registration is free and open to anyone working with the Lesser Spotted Eagle and other associated species.

LIFE AQPOM team

In case of any questions or requests feel free to contact project assistant Maija Rozenfelde, majja.rozenfelde@ldf.lv
www.mazaiserglis.lv

The conference is organised as a part of the project LIFE13 NAT/LV/001078 “Conservation arrangements for Lesser Spotted Eagle in Latvia” (LIFE AQPOM). The project is financially supported by EU LIFE+ programme.
